

Senior Android Engineer (m/f/d)

Since the foundation in 2017, MindDoc has developed into Germany's leading provider of video-based psychotherapy.

In addition to video-based psychotherapy, MindDoc also operates a mental health app that has been downloaded onto smartphones by over three million people worldwide.

With our customised offer, we encourage people to take their mental health into their own hands. We make help and support easily accessible. Anytime, anywhere and for everyone.

You can expect a warm and committed team with a start-up mentality, who together and with great passion will do everything they can to raise awareness of video-based psychotherapy and the digital health application and achieve our company goals.

Join the MindDoc team and make psychotherapy and digital health applications easier and more accessible for more people!

As a Senior Android Engineer (m/f/d) at MindDoc you...

- Will have the freedom to use state-of-the-art technologies and in turn, be expected to deliver a stellar user experience.

- Play a key role in the core strategy of the company: You are significantly responsible for our overall success.
- Contribute to an engineering culture where developers enjoy working and keep learning.
- Will be part of a cross functional team using agile methodologies.

Furthermore...

Writing high quality code, performing code reviews and having technical discussions is your daily work.

You...

- Have 5+ years of experience developing Android applications using Kotlin.
- We will strongly value your knowledge of Coroutines (Flow/SharedFlow), Hilt/Dagger, Gradle (Kotlin DSL), and Retrofit.
- Know and understand the most common mobile architecture patterns: MVVM, Clean Architecture, and Reactive Programming.
- Have experience in development with unit and E2E/UI tests - we work extensively with test frameworks to ensure the maximum quality and to be able to deliver at any time.
- Have good knowledge of development workflow automation (Fastlane, Danger, Custom Gradle Plugins) – Continuous Delivery is truly in our DNA.
- Have an appreciation for great user experience as much as for awesome tech architecture.
- Are great at communicating with people, motivating everyone, and getting the whole team on the same page.
- Are comfortable to work with Git and Pull Requests.
- Already worked in an agile environment.
- iOS and Swift knowledge is a big plus.
- Are fluency in English, German is a plus.

You can expect...

- First and most important for us: A meaningful job. Digitizing mental health and helping thousands of people daily is not easy, but when it works it is incredibly meaningful

- A carefully crafted balance between a digital health startup with flat hierarchies, a self-dependent way of working, clear-cut communication, and speed on the one hand and a strong, stable and family-owned hospital group as our 100% shareholder on the other hand provides a unique combination of innovation and flexibility + a stable and safe job
- 30 days of vacation
- Work remotely, come to the office in Berlin or Munich whenever you want
- Sponsored lunch
- VIP treatment in Schön Klinik's portfolio, pension plan, and child care
- Company bike lease options
- Employee discounts with more than 600 different brands
- EGYM Wellpass

We look forward to receiving your application and getting to know you!

Our job advertisements are open to all suitable candidates (m/f/d) regardless of the characteristics listed in § 1 AGG (gender, age, disability, religion, ideologies, ethnic origin or sexual identity).
